

# BLOWING HOT AND COLD: CUBA AND THE CAIRNGORMS

with PHIL ABRAHAM

Phil is a travel photographer and adventurer, making a much anticipated return to the club with some new tales and photographs.

When he asked us for a theme, we suggested 'hot and cold' as a working title. This evolved into 'Cuba and The Cairngorms', and this image of the tobacco farmer is one of many Phil will share as he explores the challenges and opportunities of these two distinctly different destinations.
